Re: A Request Re TexCom's Application

History:
This message has been replied to.

Jose,

Thank you for your inquiry. Attached is the well schematic for WDW315 that I scanned from the completion report for that well. Also attached is Section I revision 3 from TexCom's permit application. The lat-long coordinates for proposed well WDW410 (which was originally permitted as WDW315) are shown on pages I-1 and I-2.

I hope this information is helpful.

Best regards,

Kathryn Hoffman, P.E.

Good morning Ms. Kathryn:

I was unable to locate Lat-Long information or a well schematic for the WDW-315 well discussed in TexCom's application. I also looked for location information for this well in a list provided by Mr. Jim Neeley, but could not find any. If you have this information, I would appreciate your sharing it with us. We did get, from a different

source, a well schematic for the WDW-410 well, which I have attached in the form of an image file in order to give you an idea of the type of information I am looking for. Your assistance will be greatly appreciated. Have a nice day. Sincerely,

Jose Eduardo Torres - 6WQ-SG
